

Dr. Sanderson could choose to practice anywhere.

He chose Norwalk Hospital.

Dr. Scott Sanderson, a neurological surgeon at Norwalk Hospital, is an expert in minimally invasive spine surgery and the treatment of head injury and brain tumors. He received his MD degree cum laude from State University of New York at Syracuse. He completed his training in general surgery and neurological surgery at New York University Medical Center, where he was Chief Resident in Neurological Surgery. Dr. Sanderson publishes on neurosurgical topics and has lectured nationally on the treatment of spine and head injuries.

Like so many talented physicians and surgeons at Norwalk Hospital, Dr. Sanderson could choose to practice anywhere in the state – indeed, anywhere in the country. He has credentials and skills any hospital would be lucky to have. He chose Norwalk Hospital.

Physicians and patients alike continue to choose Norwalk Hospital for the very same reason: quality. Quality outcomes. Quality technologies. Quality staff. Quality facilities. It's no wonder that for quality, Norwalk Hospital is lower Fairfield County's hospital of choice.
